Solar Technologies

Make Your Solar Cells Better

Corporate Presentation – April 2020

www.aurorasolartech.com TSX-V: ACU, OTCBB: AACTF, FRA: A82

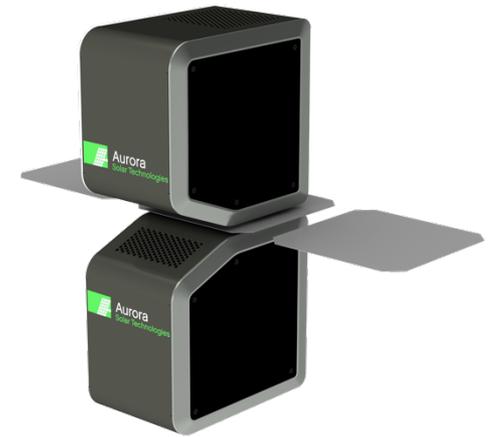

Safe Harbour Statement

Forward Looking Statements: Certain of the statements and market data contained in this presentation are forward-looking statements which involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements.

Aurora Solar Technologies

- FOR SOLAR CELL MANUFACTURERS, who struggle to be profitable
- ✓ Aurora's manufacturing quality control systems INCREASE manufacturing YIELD and PROFITS
- ✓ Unlike our competition, we provide a WHOLE SOLUTION for this need

Quality measurement of a series of solar cells

Real-time quality assessment based on measured parameters

Aurora's Vision:

Become the number one quality control system provider for solar product manufacturing

More than 150 systems sold
50% Gross Margin
Profitable last fiscal quarter

Sales/presence in largest
global markets

\$525M market
Manufacturing capacity
growing over 20% per year

Validated
by industry leaders

Positioned for growth
Leading patented technology
Industry-recognized team

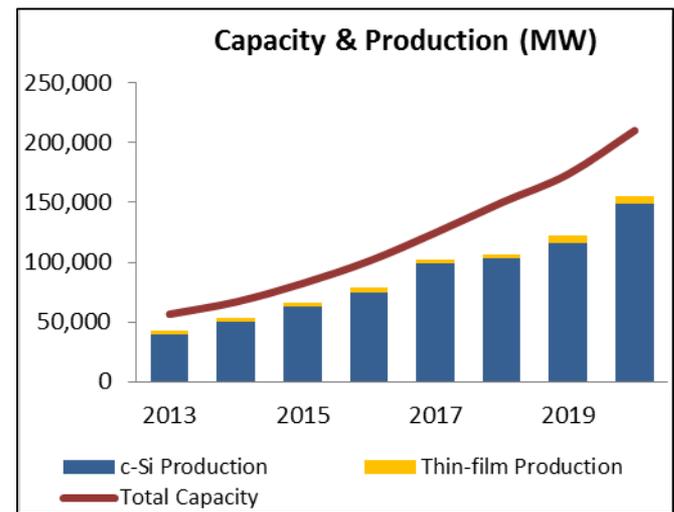

\$10M market cap
Attractive investment as
business executes to plan

Our addressable market is large and rapidly growing

- Solar industry long-term growth at 25% CAGR
- Annual CAPEX for solar cell manufacturers > \$4.3 billion
- Of this, Aurora's addressable market > \$525 million

Solar cell manufacturing growth

Manufacturing Challenges Today

Lost profit in manufacturing

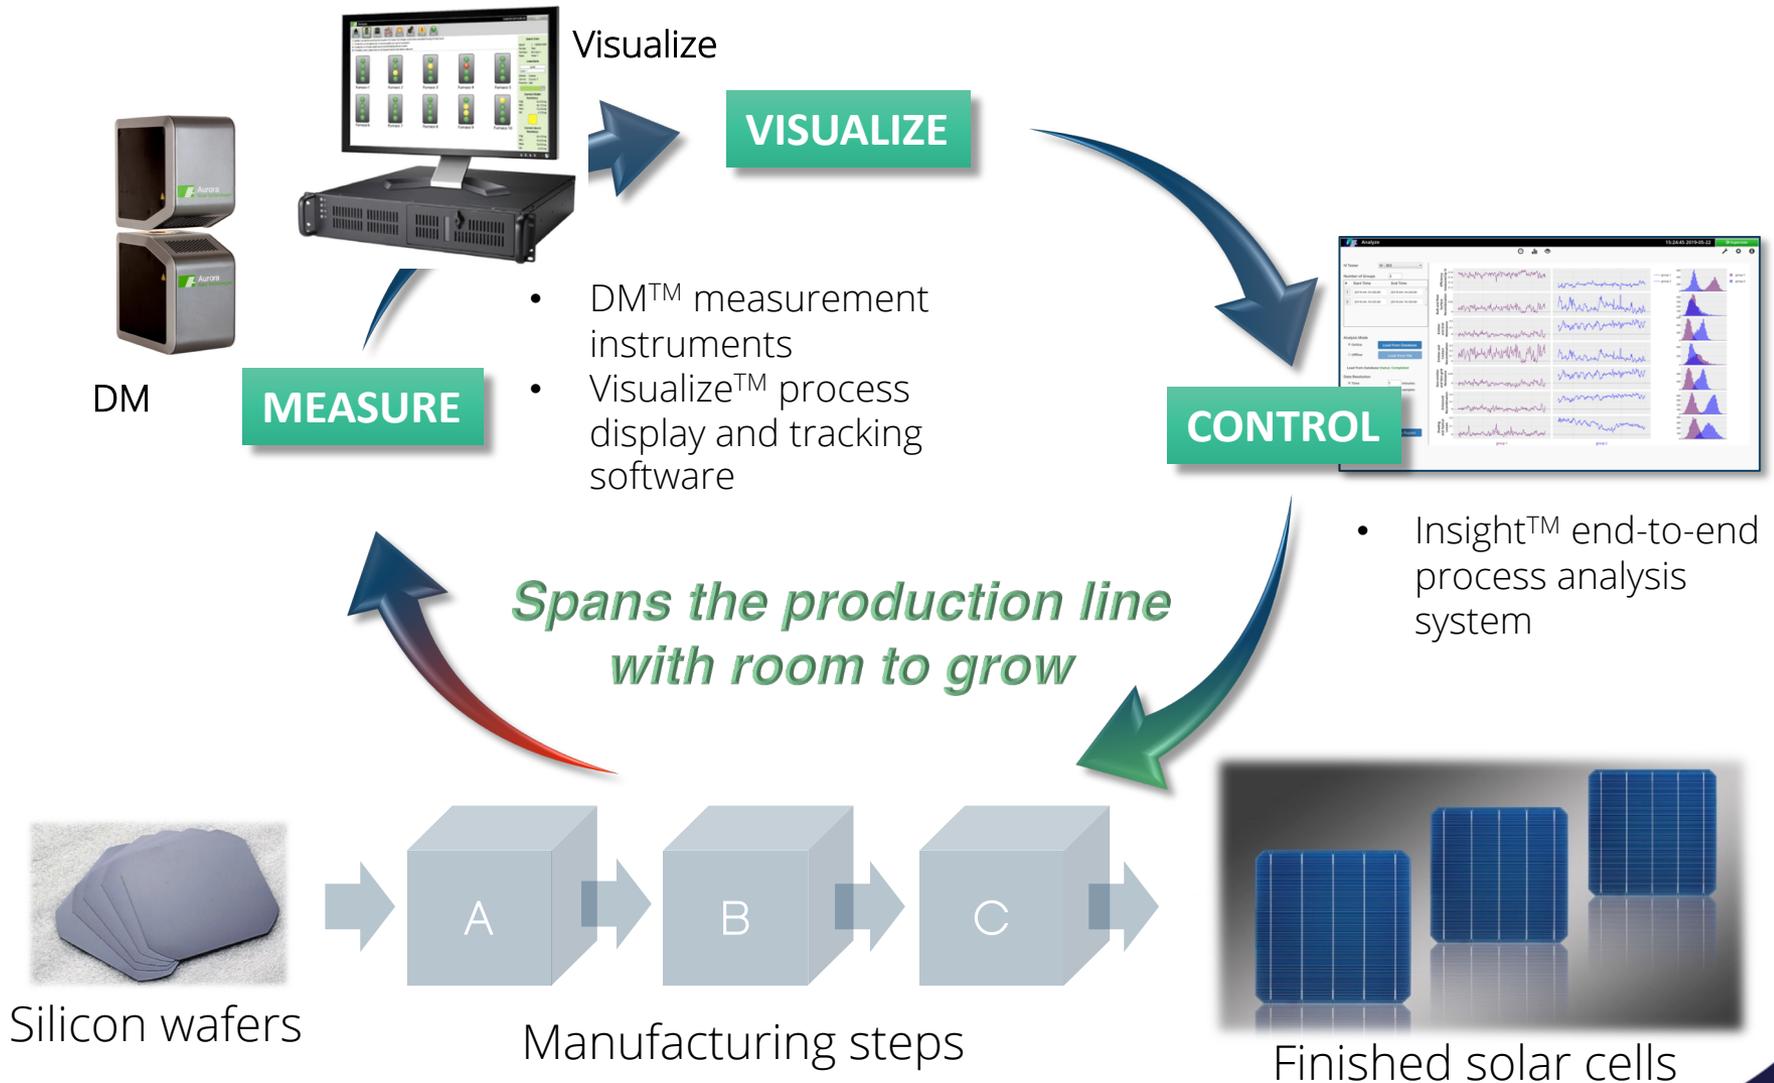

- Increasing labour costs due to turnover and rising wage rates
 - Now driving adoption of automated handling and inline measurement
- High raw material and processing costs relative to selling price

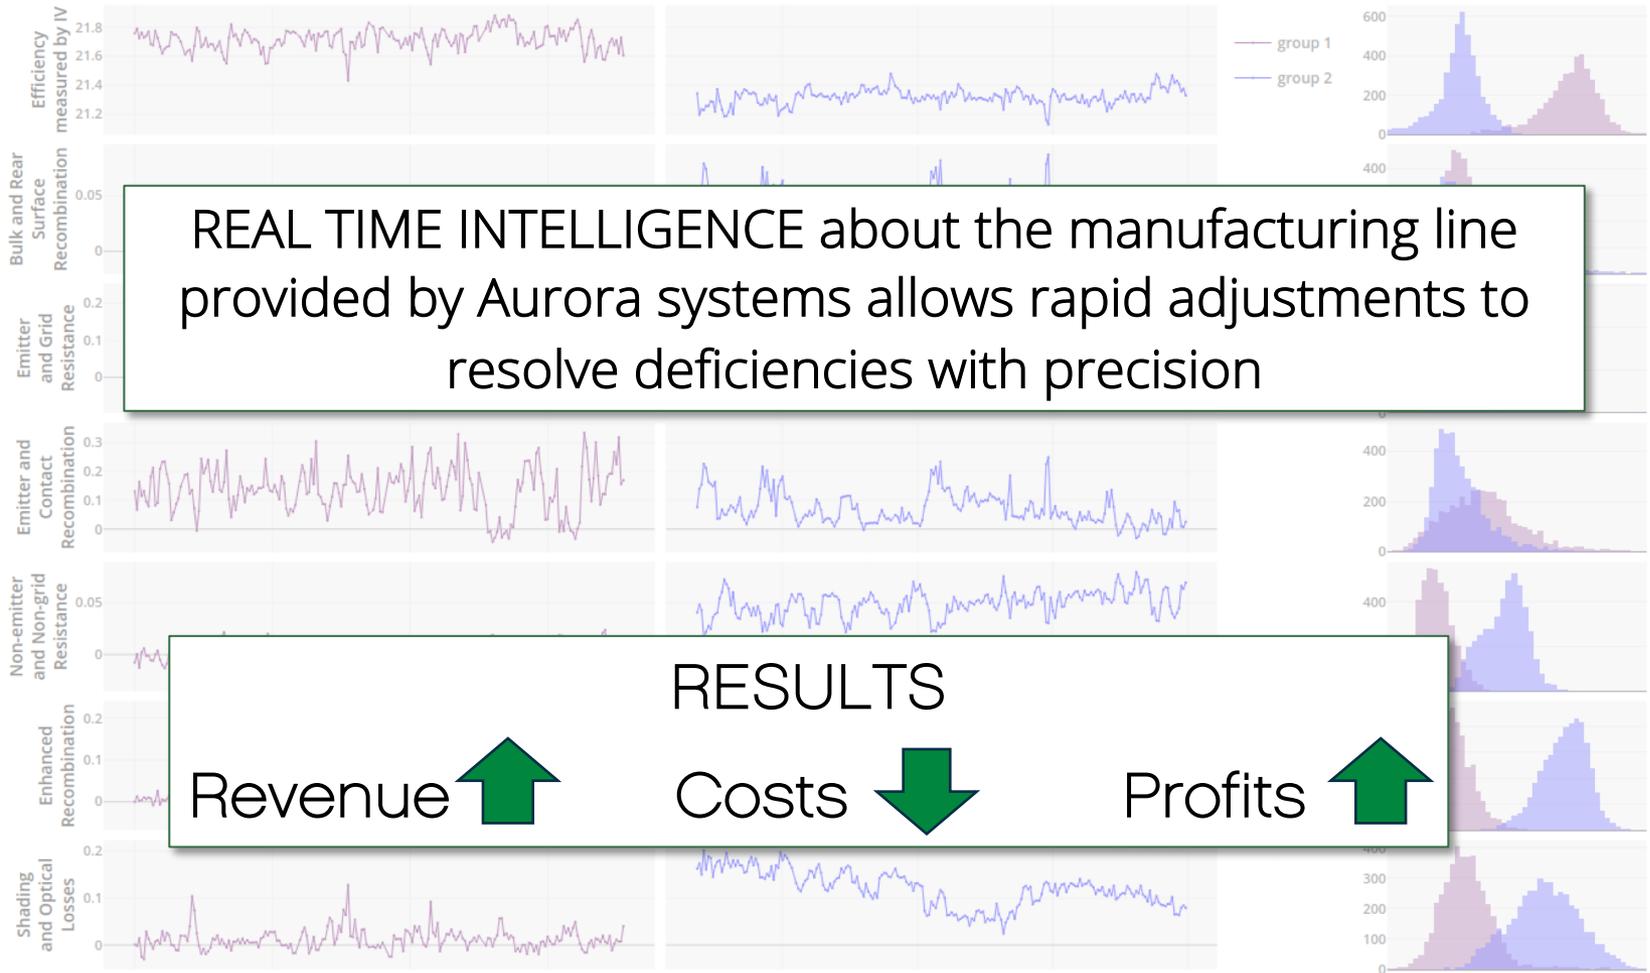

A solution is needed to realize the efficiencies

Aurora is THE solution

Result

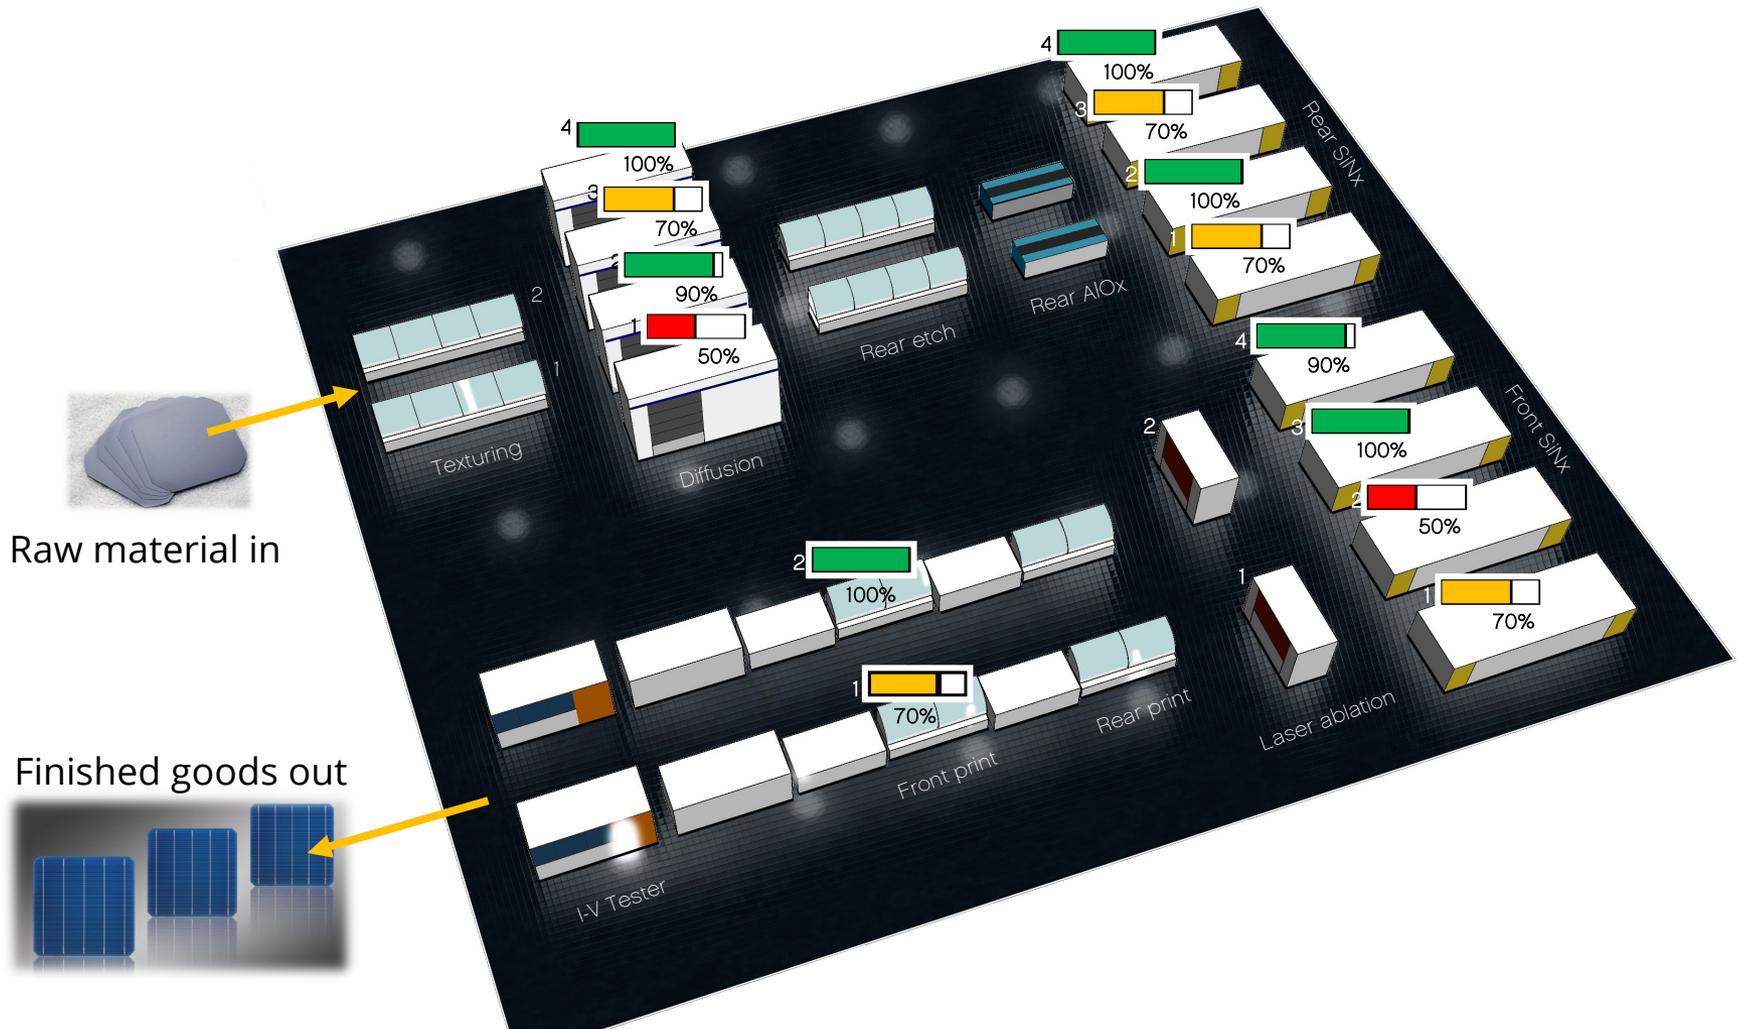

Insight™

The next step in Aurora's solution portfolio – GA H2'20

- Proprietary tool evaluates big data - in real time - to troubleshoot and optimize solar cell production
- Benefits
 - Pinpoint best-worst performing machines; identify best production routing → *fast yield and throughput maximization*
 - Laborious optimization experiments eliminated, testing automated
 - Ramp up of new production lines accelerated

Plant-wide view of performance

Strong Aurora Solar Team

Gordon Deans, P. Eng., M. Eng.
CEO and Founder

Extensive leadership experience in new product development and market introduction, public company turnarounds with Nortel, Norsat, Omron Adept Automation

Wei Deng, MBA, M. Sc.

General Manager – Asia Pacific
30 years of global management experience in marketing, sales strategic planning, and investment in high-tech industries, including senior positions at Microsoft China, Librestream Technologies, and Norsat International.

Product team

- Software experience: Creo/Kodak, Sierra Wireless, Alpha Technologies
- Hardware experience: Schneider Electric, Honeywell, Sandvik

Johnson Wong, Ph.D.
Chief Physicist

University of New South Wales, SERIS, Industry-recognized expert in solar cell physics and design. Co-inventor of “Griddler”, a widely-used solar cell simulation product.

Board of Directors

John McNicol - Senior executive with proven track record of creating shareholder value

Kevin Dodds, CPA - Sr executive specializing in corporate, financing, operational matters in high-growth companies

David Toyoda, LLB- experienced securities legal and corporate organization expert

Gordon Deans – CEO and Founder

Equity Structure

Share price (April 30, 2020):	\$0.10
Market Cap:	\$10.7M
Common Shares:	107,287,325
of which insiders and founding investors own:	20%
Warrants:	18,920,000
	@ 0.15 expiring 5/12-03-21
	2,066,400
	@ 0.075 expiring 11-15-20
Employee/Director Options:	6,185,000
	(W/A \$0.105)
Fully Diluted:	133,917,325

Five reasons to own ACU shares

1. Large and growing addressable market
2. Rapidly building sales in the largest solar market in the world – China
3. Dynamic, proprietary product roadmap to diversify and strengthen sales
4. Globally recognized team in the solar industry, respected and influential
5. Strong leadership and Board with track record of creating value
